People Development

When you partner with us, we will listen closely to your needs and goals to create a customized solution for your organization.

Our approach is centered around the belief that the people in an organization have a voice. We believe that this is essential to creating a culture of engagement, productivity, and innovation. Through our services, we can help identify high-potential individuals and create a strategic and comprehensive talent development plan that will help ensure that your organization has the right people in the right positions for not just the present but also the future. This strategic approach not only fosters internal growth but also mitigates the perpetual need for excessive external recruitment, resulting in substantial cost savings and safeguarding your investments.

We acknowledge that navigating change can be challenging. We know that change is not always easy, and we are committed to providing ongoing support to ensure that our collaborative work continues into the future.

We believe in helping develop organizational leaders who are agile in navigating both anticipated and unforeseen challenges. We encourage a culture of innovation across all levels of the organization. Our philosophy champions leaders who embrace feedback and exhibit a willingness to pivot strategies when necessary.

By partnering with us, you can rest assured that we will tailor our approach to align with your organization's unique needs and aspirations. Recognizing the distinctiveness of each company, we are committed to delivering bespoke solutions tailored to your specific requirements.

Change & Transformation Management

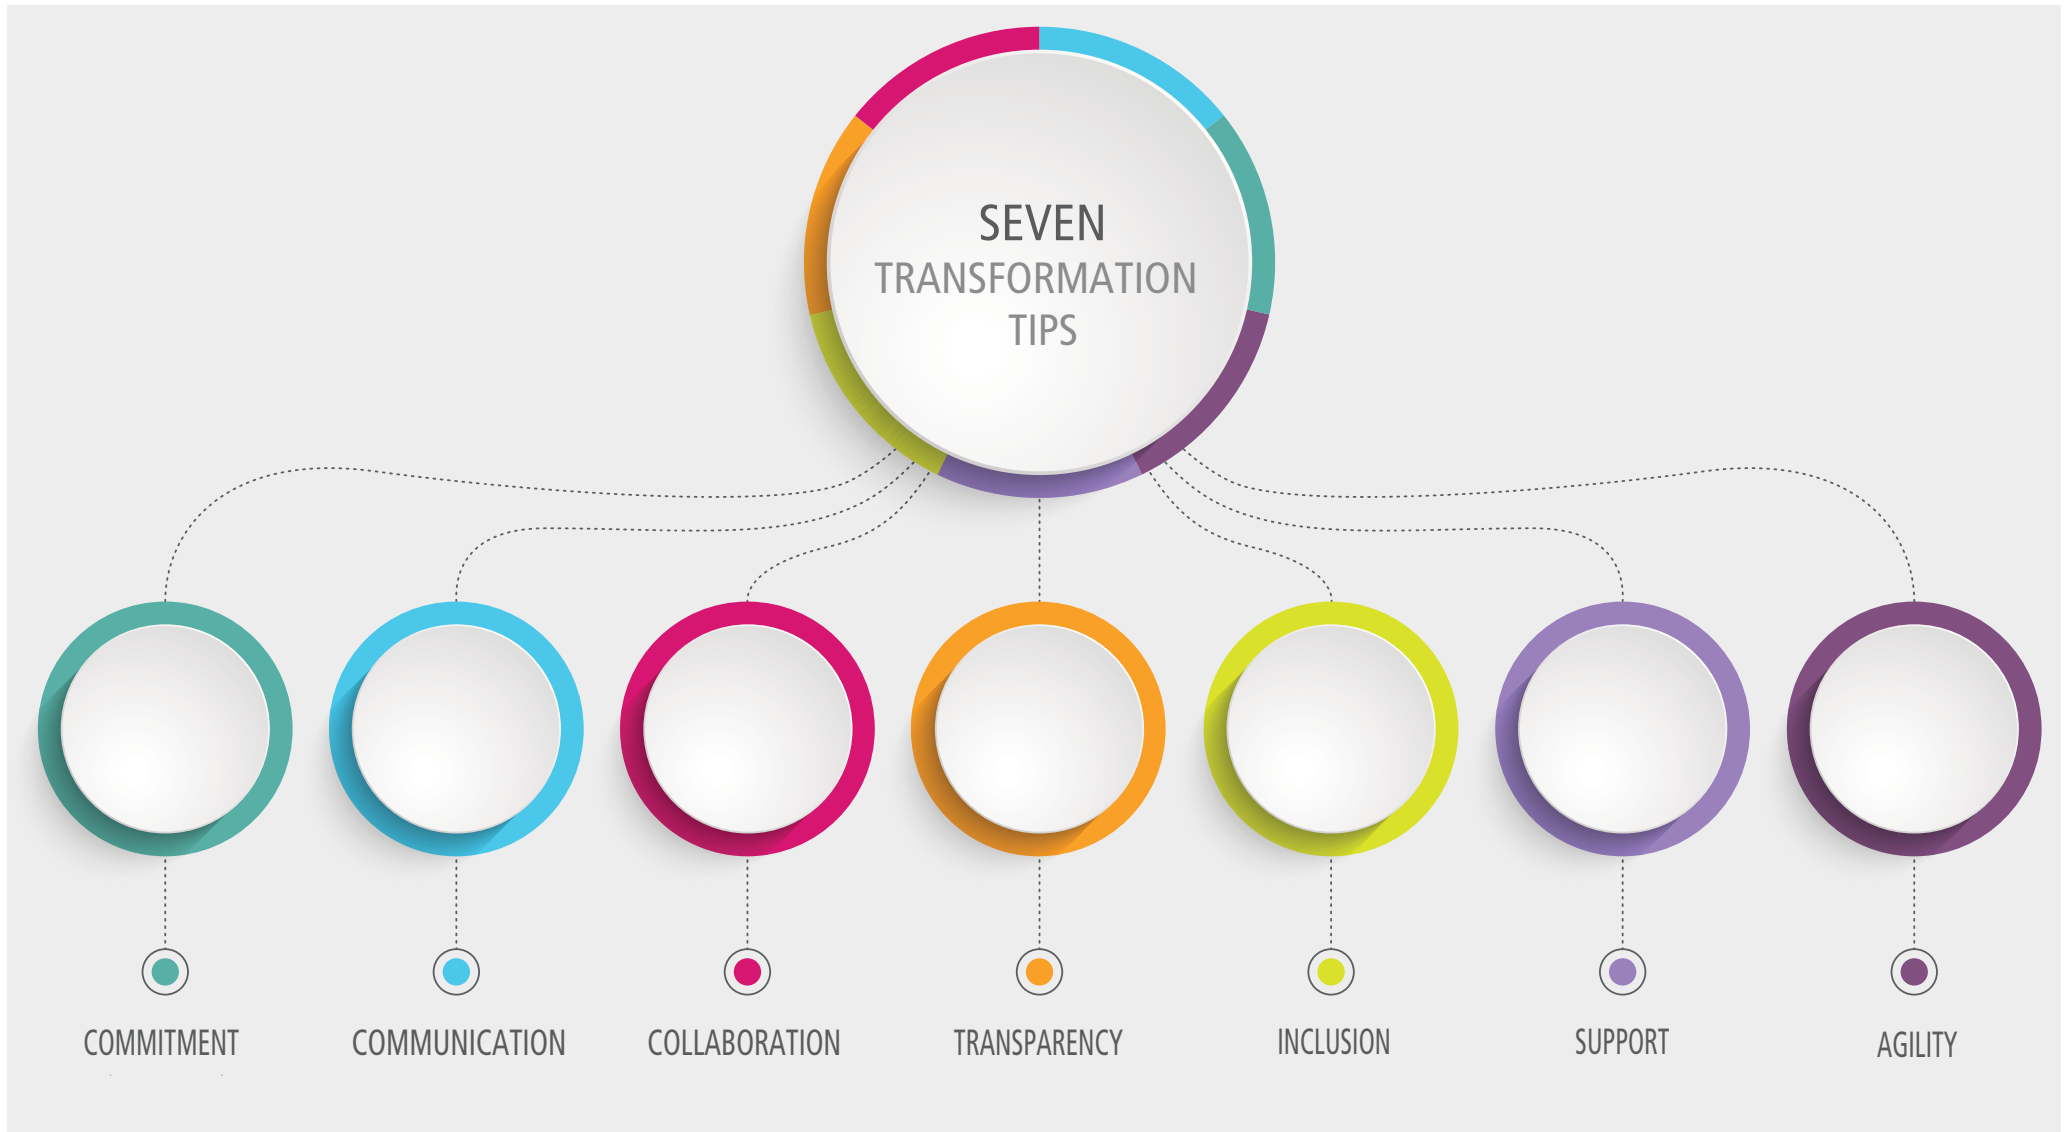

Organizational Change is Inevitable. *How will you embrace it? Do you want your organization to thrive, simply survive, or completely fail?*

Up to 70% of major change management projects fail over the long-term.

At People Strategy Partners, LLC, we approach each project with a fresh perspective. We believe that communication at all levels of an organization and transparency about change is part of the key to successful outcomes. If the standard assessment tools needed for the project do not match your organization, we will create customized assessments. We will create plans that encompass short, mid, and long term goals. Any significant change within a corporation requires the support of staff at all levels. Different organizations have their own

unique corporate culture that can also vary internally throughout different departments and especially different regions and countries. We have the international experience in multiple industries and understand the importance that culture plays within the office environment. Let People Strategy Partners, LLC be a part of your team to ensure your success in change and transformation projects and that your organization's investment yields a high return.

7 Universal Tips for Transformation

Benefits of Older Workers

Ageism is a growing concern across many countries and corporations. Unlike other forms of discrimination, it often goes unnoticed or unaddressed, making it difficult to capture accurate global statistics. Many older workers are pushed into early retirement whether through firings, layoffs, or downsizing, even when they are willing and able to continue contributing.

Worse still, older job seekers often face significant barriers to reemployment. One of the most common and misleading reasons employers give is that these candidates are “overqualified.” This not only disregards their experience but also perpetuates an unfair bias.

Let People Strategy Partners, LLC assess your hiring practices. We can help you identify and eliminate age-related biases to build a more inclusive, equitable, and effective workforce. Strengthen your organization by valuing talent at every stage of life.

The benefits of older workers are as follows:

- Fully Engaged and Happier**
- Highly Skilled**
- Great Mentors**
- Good Problem Solvers**
- Less Absent and Loyal**
- High Interpersonal Skills**

People Wellness

People Strategy Partners, LLC provides specialized assessments and coaching in-person or virtually. By partnering with us, organizations can demonstrate their commitment to employee wellbeing and create a supportive culture that values mental and physical health.

Crisis Management

A crisis is an emotional roller coaster that will decrease the ability to make good decisions. The negative impact of distress on mental and physical health is well-documented, and it's important for companies to provide resources to help their employees cope. Distress, the negative form and the opposite of eustress, is a continuous experience of feeling overwhelmed, oppressed, and behind in our responsibilities. Acute distress can cause various problems like a lowered immune system, sleeping problems, anxiety, headaches, muscle aches, gastro-intestinal problems (stomachache, heartburn,

etc.), fatigue, and short-term memory loss. We will provide your people with the support and guidance during a crisis.

Assessments and coaching can be particularly helpful during a crisis, as they can provide employees with the tools and strategies that they need to manage their stress and emotions effectively. In-person and virtual options also allow for flexibility and accessibility, making it easier for employees to get the support they need. This, in turn, can lead to increased resiliency and better outcomes.

Work Burnout Prevention & Recovery

Work Burnout is a chronic distress that can become long-term and disabling. It is one of the most challenging problems that people can face during their career. Work burnout tends to occur in individuals that are in professions characterized by a high degree of personal investment in their work, high performance expectations, and emotionally demanding interpersonal situations. It leads to emotional and medical problems and has a huge financial and negative impact for the individual and the organization as a whole. Sometimes a person does not even know they are burned out! Exposure to chronic distress can contribute to such things

as heart disease, elevated blood pressure, insomnia, depression and/or anxiety problems. Furthermore, distress can have a negative impact on the immune system making people more vulnerable to health problems. These issues can lead to high rates of absenteeism, low productivity, poor decision making, and/or lowered ability to handle a routine tasks.. Dr. Cristiano is an expert in helping people prevent or recover from burnout. He designed a free Work Burnout Screener in 2010 and more recently created one for those that work at out of the home. Preventing work burnout should be a top priority at any organization!

Short-Term Focused Coaching

Dr. Cristiano provides short-term focused coaching for his corporate clients.

Short-Term Focused Coaching is an evidence-based method centered on goals and the integration of positive thinking. It aids clients in fostering change by emphasizing solutions rather than dwelling excessively on problems. Essentially, it serves as a forward-looking framework for shaping, inspiring, attaining, and maintaining desired changes.

This service will be available in-person at the location of the executive's office or remotely. Dr. Cristiano believes in a holistic approach by looking at the whole person and the environment that an individual lives and works. Ask about a corporate or negotiated rate.

**Chez Cristiano,
Global President**

Dr. Chez Cristiano is the Global President at People Strategy Partners LLC, a consulting firm that helps organizations and individuals thrive and succeed in a dynamic and complex world.
